NITISH KUMAR

Full Stack Web Developer & AI Systems Engineer

Kushinagar, Uttar Pradesh, India | n70105453@gmail.com | +91 9794852980 | github.com/nitishkumar-dev | linkedin.com/in/nitishkumar-dev

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer and BCA graduate from the University of Delhi (8.1 CGPA) with proven ability in building high-performance web applications, autonomous AI conversational agents, and real-time voice automation pipelines. Strong foundation in JavaScript/TypeScript, Python, React, Next.js, and Node.js. Dedicated to clean architecture, modular software design, and accessible, responsive user experiences.

TECHNICAL STACK

Languages	JavaScript (ES6+), TypeScript, Python 3, HTML5, CSS3/Modern CSS, SQL
Frontend	React, Next.js 15 (App Router), Tailwind CSS, Responsive Design, State Management
Backend & APIs	Node.js, Express.js, RESTful APIs, WebSockets, Python (FastAPI/Flask)
AI & Automation	Google Gemini API, LangChain, Vapi AI, Twilio Telephony, Puppeteer, WhatsApp Business Automation
Databases & Tools	MongoDB, PostgreSQL, Git, GitHub, Docker, Postman, Linux/CLI, Vercel

WORK & PROJECT EXPERIENCE

Full Stack & AI Automation Developer | Independent Engineering & Client Projects — `2024 – Present`

- Architected and deployed autonomous multi-channel AI assistants integrating Google Gemini LLM, Node.js, and WhatsApp Web automation with real-time text and Google TTS voice note synthesis.
- Implemented full-duplex conversational voice telephony agents bridging Twilio telephony trunks with Vapi AI engines over WebSockets, achieving sub-500ms latency speech-to-speech interaction.
- Developed high-conversion modern web applications using Next.js 15, TypeScript, and Tailwind CSS with sub-second page loads and 95+ Google Lighthouse scores across all metrics.

SELECTED PROJECTS

WhatsApp AI Autonomous Agent — Intelligent Conversational Bot with Voice Synthesis — `Node.js, Gemini API, Puppeteer, TTS`

- Built an autonomous WhatsApp assistant that monitors incoming chats and voice queries, maintaining conversation history and dynamic persona prompt routing.
- Integrated Google Cloud Text-to-Speech to generate lifelike voice notes directly sent back to WhatsApp users with automatic clean-up and retry logic.

Real-Time Voice AI Telephony Agent — Automated Inbound & Outbound Calling Platform — `Vapi, Twilio, Node.js, WebSockets`

- Engineered low-latency telephony infrastructure connecting phone numbers via Twilio with Vapi conversational AI pipelines for automated lead handling.
- Constructed real-time WebSocket audio streaming, call status tracking, event webhooks, and structured call transcription summaries.

Luxury E-Commerce Web Platform — Full Stack Responsive Shopping Application — `Next.js, React, Tailwind CSS, TypeScript`

- Constructed a full-featured apparel storefront featuring interactive product galleries, client-side filtering, responsive mobile cart, and optimized media loading.
- Achieved 99 Performance and 100 Accessibility Lighthouse ratings with zero layout shift and server-side component rendering.

EDUCATION

Bachelor of Computer Applications (BCA) — **University of Delhi** 2022 – 2025

- Cumulative Grade Point Average (CGPA): **8.1 / 10** (Distinction)
- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (Java/Python), Database Management Systems, Computer Networks, Web Technologies.

ACHIEVEMENTS & CERTIFICATIONS

- **Academic Distinction:** Graduated with 8.1 CGPA in Bachelor of Computer Applications from University of Delhi.
- **500+ Hours:** Hands-on production engineering in Full Stack Web, REST APIs, and autonomous AI pipelines.
- **15+ Repositories & Applications:** Built and deployed production-ready applications with high reliability.
- **Certifications:** Full Stack Web Development (JavaScript/React/Node), Python Programming & Algorithmic Problem Solving.
